SPECIAL NOTICES.

CROTON WATER.

SPECIAL NOTICE TO THE PUBLIC.

The Croton Aqueduct Board begs leave to notify all persons interested in the maintenance of a supply of water that the utmost care and economy in its use is at this moment required. The long and severe drough thas reduced the flow in the Croton river to its lowest stage. While the river flow is thus at its minimum, the delivery and consumption of water in the city has so far been kept up to the quantity which could with comparative affects be affected when the is thus at its minimum, the delivery and constitution of water in the city has so far been kept up to the quantity which could with comparative safety he afforded when the river was yielding its full supply. The excess of the consumption over the yield is rapidly reducing the reserved supply in our storage reservoir at Croton dam and in the receiving reservoirs within the city limits.

Should this continue a week longer the supply to our citizens would be reduced to less than two-thirds the quantity now used. The public is earnessly requested to be warned by this notice, and to excreise the utmost economy in all the uses of water. If this be done, and even an ordurary degree of vigilance be observed in guarding against reckiess and dishonest waste, it will be found that there is sufficient water for all reasonable and just uses; if not, no effort on our part can prevent results which will certainly bring to our citizens very great inconvenience and possibly inceluable loss.

THOS. STEPHENS,
TORION AQUEDUCT DEPARTMENT, Oct. 14, 1865.

SOUTHERN ADVERTISEMENTS.
